

Does this sound like your hired help?

- Do they not know what they are supposed to cut, asking repeat questions for clarification?
- Do they blow the grass trimming all over the neighborhood?
- Do they leave tire tracks on your lawn?
- Do they come later than they are supposed to?
- Do they often leave trash behind and green marks that weren't there before?

Lawn Technicians apologize for the industry's lack of care, as many believe cutting a lawn is an easy operation that anyone can master...
